# SPEAKER PROFILE

Dr. Muhammad Kamruzzaman Mozumder is a Professor of Clinical Psychology at the University of Dhaka, Bangladesh. He is the President of the Bangladesh Clinical Psychology Society, and a Fulbright scholar who worked as a visiting professor at the Psychology Department of James Madison University, Virginia, USA. His PhD research at Monash University concerned cognitive determinants of racial prejudices. He received a Commonwealth Professional Fellowship in 2017 and worked in the East London NHS, UK to learn Systemic and Family Therapy. Along with an active teaching and clinical career, he has published articles in many academic journals and presented conference papers globally. Dr. Mozumder's area of work includes general mental health, parenting, HIV/AIDS counseling, injecting drug use, LGBT mental health, refugee mental health, tool construction, qualitative research, indigenization, and resource development in research and clinical service. As a clinician, Dr. Mozumder works mostly with adult mental health problems using cognitive behavior therapy, dialectical behavior therapy, narrative therapy, and systemic therapy approaches.
